

Sgript Glinigol COVID-19 2023

Bydd y cwestiynau canlynol yn ein helpu i benderfynu a oes unrhyw reswm pam na ellir rhoi'r brechlyn COVID-19 heddiw. Os byddwch yn ateb "ie" i unrhyw gwestiwn, nid yw o reidrwydd yn golygu na ellir rhoi'r brechlyn. Mae dim ond yn golygu y gellir gofyn cwestiynau ychwanegol. Os nad yw cwestiwn yn glir, gofynnwch i'r gweithiwr gofal iechyd ei esbonio. Nid yw'r rhestr hon yn cynnwys popeth.

1. A ydych yn sâl heddiw?
2. A oes gennych unrhyw symptomau newydd COVID-19?
3. A ydych yn cael ymchwiliad neu a oes gennych anabledd difrifol neu a ydych wedi dirywio yn dilyn symptomau COVID-19 estynedig?
4. A allaf ofyn beth yw eich oedran? (Noder: Gwiriwch y brechlyn sy'n briodol i oedran a gwirio caniatâd ar gyfer < 16 oed)
5. A oes gennych unrhyw alergeddau? A gawsoch unrhyw adwaith alergaidd yn dilyn brechlyn COVID-19 yn flaenorol? (Noder: gwirio am alergeddau i unrhyw lenwydd o'r brechlyn COVID-19)
6. A ydych erioed wedi cael adwaith anaffylactig heb ei esbonio, neu anaffylaxis yn gysylltiedig â sawl meddyginiaeth wahanol?
7. A ydych wedi cael brechlyn COVID-19 yn flaenorol? (Os do gwiriwch hyd y bwlch ers cael y brechlyn)
8. A oes gennych gyflwr neu a ydych yn derbyn triniaeth sy'n effeithio ar eich system imiwnedd? A oedd eich system imiwnedd wedi'i gwanhau'n ddifrifol ar yr adeg y cawsoch unrhyw frechlynnau COVID-19 blaenorol?
9. A ydych yn feichiog? A ydych yn bwydo ar y fron? (Noder: rhwng sicrwydd bod y brechlyn COVID-19 yn ddiogel yn ystod beichiogrwydd ac wrth fwydo ar y fron)
10. A oes gennych anhwylder gwaedu neu a ydych yn cymryd unrhyw beth i deneuo'r gwaed? (Noder: Os oes gan yr unigolyn bwrpwa thrombositopenig (ITP), cynghorir profion gwaed dilynol i wirio platennau 2-5 diwrnod ar ôl imiwneddio)
11. A ydych wedi cael myocarditis neu bericarditis ar ôl dos o frechlyn COVID-19?
12. A ydych wedi cael syndrom capilari yn gollwng?
13. A ydych wedi cael Syndrom Guillain-Barre ar ôl dos o frechlyn COVID-19? (Os ydynt, gwiriwch pa frechlyn COVID-19 sydd ei angen)
14. (Plant a phobl ifanc yn unig) A ydych wedi datblygu Syndrom Llidiol Aml-system Pediatrig (PIMS-TS neu PIMS) ar ôl haint COVID-19? (Os do, a oedd hyn yn ystod y 3 mis diwethaf?)

Mae'r wybodaeth a gynhwysir yn y ddogfen hon yn gyfredol ar 27/03/2023. Mae'n bwysig bod yr holl imiwneddwyd sy'n darparu rhaglen frechu COVID-19 neu'r rhai sy'n rhoi cyngor imiwneddio yn ymgyfarwyddo â'r dystiolaeth a'r canllawiau clinigol diweddaraf, gellir dod o hyd i'r rhain yn y ddogfen allweddol ganlynol: Llyfr Gwyrdd Pennod 14a COVID-19.

COVID-19 Clinical Script 2023

The following questions will help us determine if there is any reason why the COVID-19 vaccine cannot be given today. If you answer "yes" to any question, it does not necessarily mean the vaccine cannot be given. It just means additional questions may be asked. If a question is not clear, please ask the healthcare worker to explain it. This list is not exhaustive.

- 1. Are you unwell today?**
- 2. Do you have any new symptoms of COVID-19?**
- 3. Are you being investigated, or do you have a serious disability, or have you had a deterioration following prolonged COVID-19 symptoms?**
- 4. Please could I ask your age? (Note: Check age-appropriate vaccine and check consent for < 16 years)**
- 5. Do you have any allergies? Did you have any allergic reaction following a COVID-19 vaccine previously? (Note: checking for allergies to any excipient of the COVID-19 vaccine)**
- 6. Have you ever had an anaphylactic reaction that is unexplained, or anaphylaxis to several different medicines?**
- 7. Have you had a COVID-19 vaccine previously? (If yes check interval)**
- 8. Do you have a condition or receive treatment that affects your immune system? Was your immune system severely weakened at the time you had any previous COVID-19 vaccines?**
- 9. Are you pregnant? Are you breastfeeding? (Note: reassure that COVID-19 vaccine safe in pregnancy and whilst breastfeeding)**
- 10. Do you have a bleeding disorder or are you taking any blood thinners? (Note: If individual has immune thrombocytopenic purpura (ITP) follow up bloods to check platelets 2-5 days post immunisation are advised)**
- 11. Have you had myocarditis or pericarditis after a dose of COVID-19 vaccine?**
- 12. Have you ever had capillary leak syndrome?**
- 13. Have you had Guillain-Barre Syndrome after a dose of COVID-19 vaccine? (If yes check which COVID19 vaccine is required)**
- 14. (Children and young people only) Have you developed Paediatric Multisystem Inflammatory Syndrome (PIMS-TS or PIMS) after COVID-19 infection? (If yes, was this in the last 3 months?)**

The information contained within this document is up to date as of 27/03/2023. It is important that all immunisers delivering the COVID-19 vaccination programme and or those who are providing immunisation advice familiarise themselves with the most up to date clinical evidence and guidance, this can be found in the following key document: Green Book Chapter 14a COVID-19.
