The Readspeaker function is available on all screening pages within the Public Health Wales website and can be found here

The screenshot shows the homepage of the Newborn Hearing Screening Wales website. At the top, there is a navigation bar with links for Home, Topics, Working for Us, Data, News, Services and Teams, Publications, and About Us. Below the navigation bar, the page title "Newborn Hearing Screening Wales" is displayed, along with the Welsh logo "Sgrinio Clyw Babanod Cymru" and the English name "Newborn Hearing Screening Wales". A red rectangular box highlights the "Listen" button, which is part of the ReadSpeaker interface. The main content area includes a welcome message, a section titled "Screening during the Coronavirus Pandemic", and several informational links such as "About Newborn Hearing Screening", "Information Resources", "Accessible Resources", "Programme Reports", and "Feedback". At the bottom, there are two buttons: "Information for Professionals" and "Contact Us".

If you click on the three lines, a menu will appear as below, displaying some of the additional functions of ReadSpeaker

This screenshot shows the same website as above, but with the ReadSpeaker menu open. The menu is a vertical list of accessibility features: Listen, webReader Menu, Click and Listen, Enlarge Text, Text Mode, Page Mask, Download mp3, and Help. The "Listen" option is highlighted. The main content area of the website is visible behind the menu, showing the same layout as the previous screenshot.

Click on settings and it will bring up a menu

The settings allow you to change the colours of words/sentences and text, add highlights, include automatic scrolling, and change pop up settings.

Within the settings menu there are buttons to the left that allow you to change font size, text and background colour, adjust the volume and change the reading speed.

There is a page mask feature on the main settings page which dims the background and only highlights parts of a page you hover over
